

## Who Will Stop the Rain

H.E.A.T

Maybe the love we have  
will fade away  
Then tell me: is it you or me  
we have to blame  
Girl, there's something  
I must tell you

You know we're still standing  
Together as one  
And if you still want me  
I'll be there

Who will stop the rain  
From falling down all over us  
Who will stop the rain  
Believing is the only way

Lately we pretend  
like there is nothing to save  
But love need no reasons,  
no promise, to exist  
We've gotta take,  
we've gotta take what we want

You know we're still standing  
Together as one  
I know i still want you  
I still care

Who will stop the rain  
From falling down all over us  
Who will stop the rain  
Believing is the only way
