

Klown

Hackneyed

The manege,
Best hideout for my plans
The make-up, the set smile
To mask my actual tasks

One - enter slow
Two - take a bow
Three - play the show

And earn their trust unnoticed

Four - make them laugh
Five - on your behalf
Six - stand the gaff

This disgrace will be worthwhile (it)

A life of dignity
Wealth and liberty
Once all my own
Now I am Klown
Klown - I'm Klown
Klown - I'm Klown

The spotlight
Combs through the crowd like eyes
Illuminates your guise
You look up at me

Now - my bloody eyes
You - look right into them
Will - hypnotize you
Die to kill some time with me!

A life of dignity
Wealth and liberty
Once, all my own
Now I am Klown
Klown - I'm Klown
Klown - I'm Klown

Hacked up and packed up. Under the rutted site
And the caravan moves on
Some token in my box, the only evidence
No one will ever find.

I'm just Klown

A life of dignity
Wealth and liberty
In secret my own
I like being Klown
Klown - just Klown
Klown - just Klown
