

# Another Day Without You

Haddaway

There are moments in our lives  
When everything goes right  
And we're making love  
Endless love  
And then we have all these days  
Where we go separate ways  
A heart full of pain  
And no one's to blame  
It's just another day  
Without you  
Without you  
It's just another day  
Without you  
Without you  
Many times we throw away  
What we regret the next day  
And we say Good-Bye  
Forever Good-Bye!!  
And I don't know what it is  
Just a game of hit and miss?  
I wonder how long  
We can go on?
