

# Rape Of Persephone

Hades

I've been around forever, watching, waiting  
She was the one  
Took what I wanted, what I longed for  
With no remorse

Rape, in the night  
To defile the pure, it takes a soul that's dark and sure  
Power mad, sick, disease, no cure  
Screaming murder, try to fight him away  
Colors run, flag of white displayed

Rape, in the night  
Never be the same, life is not a stupid, useless game  
Somebody has to take the blame  
Screaming murder, try to fight him away  
Colors run, flag of white soiled gray

Where do you think you're going  
I'll tell you where you've been  
Through the glass so darkly  
An angel has fallen

Rape, in the night  
To defile the pure, it takes a soul that's dark and sure  
Power mad, sick, disease, no cure  
Screaming murder, try to fight him away  
Colors run, flag of white lays frayed  
Every time
