

## Shove It

Hades

What great days lie just ahead  
Starving youth, hopes dashed in dread  
Such a cherished, sacred thing  
Carelessly reproducing  
Shove It-When you're bitchin' and your itchin' just to blame so  
mebody else  
Shove It-Live your lie until you die cause all you're loving is  
yourself  
Shove It-In your face cause you're complacent and you're draggi  
n' us down  
Born into a world of pain  
Born unloved, it's such a shame  
Finished up before life starts  
Broken home breed broken hearts  
Right to life alone and scared  
Learn to never learn to care  
Family values laughed away  
See morality decay
