

Hero

Hadise

I see you, you're sleeping
That's what you always do
Been fighting this feeling;
I can't look up to you

Won't look to the past
I just got to move on
And leave all I have
Being sad made me strong
Won't look to the past
Now I'm turning the page
And wait for a blast
Cause my hero's on his way

I'm stuck in your chapter
The same scene every day
We're lonely together
I need to break away

Won't look to the past
I just got to move on
And leave all I have
Being sad made me strong
Won't look to the past
Now I'm turning the page
And wait for a blast
Cause my hero's on his way
