

As One

Hadouken!

The distance has gone
It disappeared with the sun
No I won't let you down
No I won't you down
I kiss resistance goodbye
I got lost in your eyes
No I won't let you down

There's a place where I wanna be
A million miles from reality, as one
We are one
We'll ignore all the warning signs
Just come with me and we'll cross the line, as one
We are one
We are one

We are one

I kiss resistance goodbye
I got lost in your eyes
No I won't let you down
No I won't let you down
There's a place where I wanna be
A million miles from reality, as one
We are one
We are one

There's a place where I wanna be
A million miles from reality, as one
We are one
We'll ignore all the warning signs
Just come with me and we'll cross the line, as one
We are one
We are one

We are one

There's a place where I wanna be
A million miles from reality, as one
We are one
We are one

We are one
