

Fantastic Day

Haircut 100

Well there's a great amount of strain
About getting on that train
Every day and every night

The only thing that makes it good
Is seeing my favourite sight
Prance and flutter stride down that green escalator, yeah

When I'm getting off my train
And my love is on my brain
Every day and every night

The only thing that makes it right
Is seeing my favorite sight
Crying in the night with the summer in her eyes tonight

Fantastic day today
Fantastic day

Well I can find a funny feeling
Funny as a smile
When your mouth is all dry
Why?

Fantastic day today
Fantastic day
Well it's a fantastic day today
Well it's a fantastic day

I know I've lost myself again
True love has past me by
I tried to shave myself
Be a happier guy night and day

I can see it in your eyes
Now the summer never smiles
On a happy honey day

Am I being in the way?
When I'm so in love with you
I can't sit down and I cry in pain
With night and day

Fantastic day today
Fantastic day
Well it's a fantastic day today
Well it's a fantastic day

Well it's a fantastic day
Well it's a fantastic day
