When do stars fade their light? Does the moon and the sun make it right For you the world maybe Like an endless storm chasing a mystery Is there hate in your heart? Does your body drop and tell you to stop Loving you or loving me When it all falls down you just sing with me chorus: Coz there?s a blue sky waiting tomorrow Waiting tomorrow shining and shimmering A blue sky waiting tomorrow Waiting tomorrow Maybe it?s all we need Oh don?t you wash away that smile You just look out the window and see the light It?s beautiful to be alive It?s wonderful to live a life The sun is sure to shine For you and me for everyone So don?t be sad it?s just the start Of a new beginning in your life(chorus) Rain will keep on pouring Some things you can?t control And while the sun seems far and hard to hold It will unfold There will always be a blue sky A blue sky waiting tomorrow full of hope Yeah, full of hope yeah (chorus)
