

So there's she goes again
Taking my breath away
Afraid that I would fall
In the end after all
How long should I pretend?
How long should I can take?
But it'll never bring me down, down, down
Cause I've got a plan

So fall with me and take a chance
And we'll travel the road
Wherever it leads cause
Home is, home is when you are with me

So here we go again
Where do I begin?
You're all I wanted more
Just next to me never move
Your feet is on my side
The stars are here tonight
The chance that you may find, find, find
You waiting my heart

So fall with me and take a chance
And we'll travel the road
Wherever it leads cause
Home is, home is when you are with me
Home is, home is

How long must I wait for?
One look is all I turn to left me bright up my world
One touch is enough to heal any wound
And it's gone
is gone, is gone

So fall with me and take a chance
And we'll travel the road
Wherever it leads cause
Home is, home is when you are with me
Home is, home is when you are with me

So fall with me and take a chance
And we'll travel the road
Wherever it leads cause
Home is, home is when you are with me

So fall with me and take a chance
And we'll travel the road
Wherever it leads cause
Home is, home is when you are with me
