

# Runaway

Hale

I talked to you tonight  
To sort things out the right  
Way that we used to be  
When you were still here with me

I wanted you to know  
If you have loved me so  
Then why didn't you let me know  
'Cause I didn't wanna let you go

So why don't you just run away from here  
'Cause I don't want you to get burned by me  
This way  
You loved me to the point where I was lost  
And then I couldn't catch you there  
Right there

So just run away  
Run away from here  
Won't you run away  
Run away from here

And I will never know  
If we could ever go  
The way that we should be  
The way that we should be

So why don't you just run away from here  
'Cause I don't want you to get burned by me  
This way  
You loved me to the point where I was lost  
And then I couldn't catch you there  
Right there

So just run away  
Run away from here  
Won't you run away  
Run away from here

Won't you run away  
Run away from here  
Won't you run away  
Run away from here  
Won't you run away  
Run away from here  
Won't you run away  
Run away from here
