

Stillwater

Hands Like Houses

Pilling stones to guide the sea
To say we've stopped the tide
But we, we never did, (did we)
We never did, (did we)

We Build ... children
We made our way where there's a ...
No slowing down, standing still
Innocent and reckless

How did we get so old
And never noticed
How did we gain the world
And lose the moment
Rise and fall
The tide surrounds us
And drowns us all

Finding cracks in our ripped hands
We can't stop the water from rushing in
We can't stop the walls collapsing in.....
... to ruin again

We Built ... children
We made our way where there's a ...
No slowing down, standing still
Innocent and reckless

How did we get so old
And never noticed
How did we gain the world
And lose the moment
Rise and fall
The tide surrounds us
And drowns us all

Watching the years all wash away
Scattered stones remains
Our kingdom swallowed by the sand

(Innocent and reckless)

How did we get so old
And never noticed
How did we gain the world
And lose the moment
Rise and fall
The tide surrounds us
And drowns us all

How did we get so old
And never noticed
How did we gain the world
And lose the moment
Rise and fall
The tide surrounds us
And guides us all
