

Livin' Alone

Hank Locklin

Living alone
I may be wealthy with more than my share
I may be able to go anywhere
I may own a kingdom and sit on a throne
Still I'll be lonely while I'm livin' alone
I can follow the bright lights
Keep a smile on my face
I can travel this whole world
But not get any place
I need you near me to stick by my side
Please give me true love and don't shatter my pride
If you should leave me all the dreams I have known
Will never come true while I'm livin' alone
I need you near me to stick by my side
Please give me true love and don't shatter my pride
If you should leave me all the dreams I have known
Will never come true while I'm livin' alone
Living alone
