

Bury Me Deep

Hank Snow

Dig down deep where the ground is cold
(Dark and cold and all alone)
Tired of life all alone and
Blue happiness I never knew
In this cold world
There's nothing for me now
Won't you hear my only plea
And bury me deep
Where the sun doesn't shine
Because sunshine I've never known
Dig down deep where the ground is cold
Dark and cold and all alone
You were my love
Only love I knew
And tonight I find I can't have you
Trouble and tears are all that I see
Now you are gone please hear my plea
Bury me deep where the sun...
