

Country Relaxin'

Hank Williams Jr.

I like drivin' those old dirt country roads
I love to listen to the sound of crickets on my back porch
I like catching fish on a cane pole just about sundown time
My kinda action is country relaxin'

I love four wheeling up into the mountains
I like the white water of mother nature's fountains
I love the high places without the traces of the noise and the
smoke and factories
My kinda action is country relaxin'

Now our lifestyle today is come and go and run
But people never can forget where they all came from
From the small towns and the big mountains and the country side
of life
Ah and oh so many people wish they could go back tonight

I love being with my sweet country girl
And gettin' loud and bein' proud of our special world
And if I die before the morning Lord let my soul be warming
Knowin' till the end of time I'll be in this frame of mind
Cause my kinda action is country relaxin'

Now our lifestyle today is come and go and run
But people never do forget where they all came from
From the small towns and the big mountains and the country side
of life
Ah and oh so many people wish they could go back tonight
Ah and oh so many of us wish we could go back tonight
