

I'm Just a Man

Hank Williams Jr.

I'm just a man, I breath and I bleed
Yes, I got feelings, I can hear and I can see
And you are the lady that brings them out of me
Making me feel special, aw that's your specialty

'Cause you let me be me and I let you be you
Hey, don't that sound so easy? But that is so hard to do
Some things make me feel sad, I feel like I could cry
Feeling you next to me, aw, that makes me feel alright

I'm not made of steel and I'm not made of stone
I'm not a super hero, I'm made of flesh and bone

I'm just a man, I breath and I bleed
Yes, I've got feelings, I can hear and I can see
And you are the lady that brings them out of me
Making me feel special, aw, that's your specialty
