

# I Mean I Love You

Hank Williams Jr.

Don't doubt me every chance you get don't give me that ol' cold shoulder

Honey I don't like it baby you got a stubborn streak baby you I do too

It's not your pretty little head it's your heart I'm talking to  
I try to tell you some sweet things you try to turn it around  
You think I'm talking about some other girl in some other town  
Well if you'd listen to me you might like what you hear  
Because what I'm about to sing I wanna make perfectly clear

I mean I mean I mean I mean I love  
I dream dream I dream I dream all night of you  
I'll kiss I'll kiss I'll kissity kiss kiss kiss all over you  
I do yes I do indeed I do I show do love you

Now it did take a while for our love to grow  
I tell you get out of here and you call me so and so  
Honey I've been hurt before and you have too  
So we were just scared to death to let our feelings come through  
Once you loosened up and took the chains off our hearts  
Now I don't ever ever ever ever want to be apart

I mean I mean I mean I mean I love...
