

(I've Got My) Future on Ice

Hank Williams Jr.

"I got a past
That'll last me forever
And enough memories for one man's life (that is true)
The one I love
She ain't comin back ever
So it looks like I've got my future on ice

I got bottles and cans
That just left my hand
And a chill to just the right Fahrenheit
O love let me down
Now a truer friend I've found
Why I've got my future on ice

There was a time
She was my one and only
Until someone else caught her eye
Then for awhile,
Can you believe I was acting so lonely?
Now I've got my future on ice

I got bottles and cans
That just left my hands
And a chill to just the right Fahrenheit
Yes love let me down
Now a truer friend I found
Now I've got my future on ice

O love let me down
Now a real true friend I found
Why I got my future on ice
