

## It Just Don't Get It No More

Hank Williams Jr.

I woke up with a busted head  
I could hardly get myself out of bed  
Got in this morning half past four  
And It just don't get it no more

I don't remember much about last night  
But I do know that I got in a fight  
Somebody introduced my nose to the floor  
Oh it just don't get it no more

But I like to party like to dance to a song  
Once I get started I don't wanna go home  
Not until the break of dawn

I guess I'll have to change my life  
Try to straighten up and act right  
But there's something about a Saturday night  
I know I'm gonna wanna do it some more

I guess I'm gonna have to change my style  
Try to keep a low profile  
Cause this laying out and runnin' wild  
Hey it just don't get it no more  
I said it just don't get it no more
