

She Was Just Something to Do

Hank Williams Jr.

I didn't mean to hurt you it was just one of those things
But you know a thirsty man will drink from any spring
And now you admit your kisses were too few
Don'tcha see that she was just something to do

Now she was just something to do
Not exactly the kind of girl I'd want to come home to
There's no way that she could take the place of a woman like yo
u
Don'tcha see that she was just something to do

You took the kids and went to see some friends
And we hadn't loved since I don't know when
They say a man's passion hath no conscience and that's true
Don'tcha you see that she was just something to do

She was just something to do
She's not exactly the kind of girl that I'd wanna come home to
There's no way that she could take the place of a woman like yo
u
Don'tcha see that she was just something to do

I'm sorry darlin'
But she was just something to do
