

Southern Thunder

Hank Williams Jr.

Well they call me southern thunder
Hear me long before I come
When my guitar starts to rumble
And my amplifier hums
Its so easy makin music
All about my family home
Yea they call me southern thunder
Proud to be thats how I'm known
Now my daddy he was somewhere
Between god and john wayne
And I realized long ago
I'm gonna sure do my own thing
So I sang about a country boy
That knew how to survive
And you know I'm tellin the truth
Cause I'm talkin bout my own life
Weeeelllll they call me southern thunder
Hear me long before I come
When my guitar wants to rumble
And my amplifier hums
Its easy makin music
All about my family home
Yea they call me southern thunder
Proud to be thats how I'm known
Yea they call me southern thunder
Hear me long before I come
When my guitar starts to rumble
And my amplifier hums
Theres a storm front building up
Down in the gulf of mexico
Yea they call me southern thunder
Know me everywhere I go

No don't put us down or talk about
Our sacred southern ways
Or southern thunder just might roll around
And rain out your parade

Its so easy makin music
All about my family home
Yea they call me southern thunder
Proud to be thats how I'm known
Theres a storm front builiding up
Down in the gulf of mexico
Seems to follow me everywhere I go
Yea they call me southern thunder
Proud to be don't you know
