

Twodot Montana

Hank Williams Jr.

I bet you been wondering why you ain't heard from me
And what kind of trouble I've gotten into
Well just kiss all the babies and feed all the horses
And oh hell I might as well tell it to you

I'm in Deerlock Montana in the territory prison
They've got me for something that I didn't do
I've been framed for killin' a dude down in Dillon
But babe don't you worry cause I always come through

I've climbed up the Rockies and swam down the Snake
I spent winters trappin' in the mosery breaks
This ain't the first time I've been in a jam
I'm from Twodot Montana and I don't give a damn

These walls are so old that it's easy to go
Right through the tunnel and out in the yard
There's just one more fence of the barbed wire and then
I'll be a free man but there's one more old guard

I see his gun and there's no way to run
But I've got to try cause I can't live locked up
I feel the fire from that colt .45 and this
High country cowboy just run out of luck

But I've climbed up the Rockies and swam down the Snake...
Yes I've climbed up the Rockies and swam down the Snake...

Yes I'm a Montana cowboy and I don't give a damn
