

Young Country

Hank Williams Jr.

We are young country, we are the pride
The sons and the daughters of American life
Our hair is not orange we don't wear chains and spikes
But we know how to have fun come Saturday night

We know what's rihgt and we know what's wrong
We know what we like to hear in our songs
We like some of the old stuff, we like some of the new
But we do our own chosin' we pick our own music
If you don't mind, thank you

We are young country, we like all kinds of music and people
'Cause we don't draw no lines
No, our hair is not orange we don't wear chains and spikes
But we know how to have fun on a Saturday night

We like old Waylon an we know Van Halen
We like ZZ Top, we like country and rock
Old Hank would be proud and Elvis would too
'Cause we like our country mixed with some big city blues

We are young country, we are the pride
The sons and the daughters of American life
Old Hank would be proud and Elvis would too
'Cause we like our country mixed with some Rhythm and blues

We know when it's hot and we know when it's not
If you don't mind thank you
