

# Damn You

Hanna Pakarinen

I'm caught in the rain  
And the air is so cold  
'Cause you're not coming back  
The winter is stuck in my soul

You made me believe  
How you made me complete  
I'm so empty inside without you  
Existing but barely alive

So damn you for leaving me  
Damn you mortality  
I'm so totally weak  
I can't even breathe  
I miss you - it's killing me  
Damn you  
For leaving me

I thought we were safe  
Protected by faith  
When reality strikes  
It cut you away from my life

Save me - help me survive  
I'm so empty inside

Damn you for leaving me  
Damn you mortality  
I'm so totally weak  
I can't even breathe  
I miss you - it's killing me  
Damn you deceiving me  
Damn you my destiny  
I'm so torn incomplete  
So damn you

Late at night when you haunt me  
Take me with you, release me  
From this pain  
From going insane

So damn you for leaving me  
Damn you mortality  
I'm so totally weak  
I can't even breathe  
I miss you - it's killing me  
Damn you for leaving me
