

# When I Become Me

Hanna Pakarinen

I will make you see the stars  
Far beyond the sun and mars  
If only you could wait  
If only you could see  
If I only had the time  
Then I would be  
Yes I would be

I still wonder where you are  
Faith it didn't take us far  
I never had a chance  
To show you who I am  
If only you were here  
Then I would be  
Yes I would be

The greatest of them all  
The loser standing small  
Cause you just wait and see  
Watch when I become me  
Just better than before  
You couldn't ask for more  
I'm all I want to be  
I'm more that you can see

I will make you see the stars  
Far beyond the sun and mars  
If only you could wait  
If only you could see  
If I only had the time  
Then I would be  
Yes I would be

Ooh I never felt this good about myself  
Look at me, how I shine  
You never knew to much about me  
Never seen this side of me  
This is me look at me
