Hannah Montana

We haven't met And that's OK 'cause you will be asking for me one day Don't want to wait In line The moment is mine believe me Don't close your eyes 'cause it's a chance worth takin' And I think that I can shake you I know where I stand I know who I am I would never run away when life gets bad, it's Everything I see Every part of me Gonna get what I deserve I got nerve (I got I got I got) Electrified, I'm on a wire Getting together we're on fire What I said you heard Now I got you spinning Don't close your mind The words I use are open And I think that I can show you I know where I stand I know who I am I would never run away when life gets bad, it's Everything I see Every part of me I know I can change the world, yeah, yeah, yeah I know what you like I know what you think Not afraid to stare you down until you blink, it's Everything I see Every part of me Gonna get what I deserve I got nerve You, you need to discover Who can make you feel free And I, I need to uncover The part of you that's reaching out for me, hey I know where I stand, I know who I am I would never run away when life gets bad It's everything I see, every part of me I know I can change the world yeah yeah yeah I know what you like, I know what you think Not afraid to stare you down until you blink

It's everything I see, every part of me Gonna get what I deserve, I got nerve

(I'm what you want, I'm what you need)
Yeah yeah yeah, I got nerve
(I'm what you want, I'm what you need)

I know what you like, I know what you think Not afraid to stare you down until you blink It's everything I see, every part of me Gonna get what I deserve I got, I got nerve
