

# Talk to the Hand

Hanoi Rocks

Get real baby, baby get real  
My heads clear, i dont want no beer  
Double-bubble big trouble, dont ya come near  
Get your tits and ass outta here  
Sweet daydreaming  
Reelin freely  
Love this feeling  
Really easy

Talk to the hand, get outta my ear  
You got this coming outta left field  
Get down boogie outta my sphere  
Talk to the hand  
I wont understand  
Get real, get real  
Find yourself, find my way outta here  
Get real

Get back baby, baby get back  
You get off my back thats the fact jack!  
Dont come around flashin with your fancy sound  
Already got you sampled,  
I flog it all around to somebody

Sweet daydreaming  
Love this feeling  
Really easy

Talk to the hand, get outta my ear  
You got this coming outta left field  
Get down boogie outta my sphere  
Talk to the hand  
I know that you can  
Get real, get real  
Find yourself, find my way outta here  
Get real

Sweet daydreaming  
Love this feeling

Talk to the hand, get outta my ear  
Get real, baby  
Baby, get real (m. Monroe & a. Mccoy)

Now that im alright  
Why dont ya hang out with me tonight?  
Now that i see straight  
I know tomorrows a much better day  
Now that were back down on the ground  
Wheres all the fairweather hangers around?  
Now that my life is sweet as wine  
So exquisite, indeed divine

Well the bitches still bitchin  
The hooker keeps-a-hookin  
The hustler keeps-a-hustlin  
And the cops are out to bust em

But me, ive regained my will to live  
A clean life with you my friend

Loves a better high  
Lifes a better high  
Loving lifes the better high!

Oh honey, youre so sweet  
How come it took us so long to meet  
So very special indeed  
Youre the one that ill never leave  
Forget my notorious past  
What doesnt kill you makes you last  
As love will last for you and me  
So very true to the point of extreme

Well the bitches still bitchin  
The hooker keeps-a-hookin  
The hustler keeps-a-hustlin  
The cops are out to bust em  
But ive regained my will to live  
A clean life with you my friend

Loves a better high...

Hey, lets go out tonight  
Lets celebrate our life in love  
Such a fine gift from above  
Now and forever in the kingdom of love
