

Misery

Hanson

This time I won't take it back
'Cause something's coming to you
This time I'm going to breathe a breath
Walking on down the road

I can never promise that you'll never be lonely
But as long as we're together it can always only be

Misery

Last night I got off the fence
'Cause I won't be the fool
On this side the grass is greener than
The garden that I used to grow
I'm walking on down the road

I can never promise that you'll never be lonely
But as long as we're together it can always only be

Misery

Misery, Misery

I can never promise that you'll never be lonely
But as long as we're together it can always only be
