Misery

Hanson

This time I won't take it back 'Cause something's coming to you This time I'm going to breathe a breath Walking on down the road

I can never promise that you'll never be lonely But as long as we're together it can always only be

Misery

Last night I got off the fence 'Cause I won't be the fool On this side the grass is greener than The garden that I used to grow I'm walking on down the road

I can never promise that you'll never be lonely But as long as we're together it can always only be

Misery

Misery, Misery

I can never promise that you'll never be lonely But as long as we're together it can always only be
