

## Dying

Happy Rhodes

Maybe I love my harbor too much to be alive  
Maybe I should go out and be seen some more

You never come around to visit anymore  
We never see you on the town being like the other gals  
Are you too damn good  
To hang around with all the other normal ones?  
Wanna tell me just what's so special 'bout you, that  
you  
should keep yourself a secret

There you walk right by, can't you see I'm dying?  
Oh so cruel, just passing me by, can't you see I'm  
dying?  
Can you not feel me dying?

And I am safer than I've ever been, on this solitary  
rock of mine  
I'm waiting for my ship, for my ship to come in  
and I won't leave before it does  
I can only hope that when it comes, the captain lets me  
on to sail the blue

Maybe I need to feel some sunshine here in my heart  
Maybe I could learn to control my fears long enough

You never come around to visit like before  
Don't you like us anymore, or have you found a better  
gig?  
Are you too damn good  
To give anyone you meet the time of dy  
Whoever said you were allowed to go through life  
not playing nice with the other kids?

There you walk right by, can't you see I'm dying?  
Oh so cruel, just passing me by, can't you see I'm  
dying?  
Can you not feel me dying?

But there is one thing that I know, I won't come out on  
my own  
So pull or let me go.....and I'll stay safe within  
this, my  
tropical cocoon  
All I ask is when I'm dead and gone, tell Oxy and Eze I  
hid too long.
