

Fall

Happy Rhodes

In Out
In Out
(indistinct voices)

All my worries here are through
I give all my colour to you
This world lost me back two Junes
I surrender
All hope to youth

When the moon comes up
I go down
For the first time
There's a garden deep
Deep in my heart
But it's blossomed
For the last time

Cold is mercy
Heavy and sweet
Leaves make my blanket, root at my feet

Life is only good for the living

Time out-ran me
But sleep is forgiving

When the moon comes up
I go down
For the first time
There's a garden deep
Deep in my heart
But it's blossomed
For the last time

Will the angels cry
Over my past
Or over my love
Bringing him moss
To remember me by

Sleep
