

I Can't Change

Hardcore Superstar

I'm changing, could you change for me

I promise I won't lie, masturbate or smoke with my black friend again

I will never learn so forgive me for who I am, I'm not a patient man

I end up on the floor for most of my time,

that's when you see me shine

I can't change a thing, I said everything

Leave me be, you need a different kind of therapy

I'm changing, could you change for me

I promise I will walk, talk

And play my part again
