

Fever Dreams

Hardline

The moon don't shine and I don't see my road again
Where's the light at the end where is my life lost
An ancient call, darkness fall around me
Spirals and fire, you'd put me higher again.

Where am I now? What should I see beyond?
No shining star to light my way home

Stone cold, heart of gold, set me free
Dark night, poison bite, fever dreams
Déjà vu I can't see through
Leave me alone
A later dawn, brightness gone
Fever dreams

No edge on this town, only despair around
No candle to burn, where should I turn?
The day is gone and like a swan I sing my last song
Devil's daughter awaiting your slaughter, you're lost

Where am I now? What should I see beyond?
No shining star to light my way home

Stone cold, heart of gold, set me free
Dark night, poison bite, fever dreams
Déjà vu I can't see through
Leave me alone
A later dawn, brightness gone
Fever dreams

Stone cold, heart of gold, set me free
Dark night, poison bite, fever dreams
Déjà vu I can't see through
Leave me alone
A later dawn, brightness gone
Fever dreams
