

Hot Cherie

Hardline

Been too long since the last rain
Still the stars sizzle hot in the sky
And there undressed in the shadows
Stands my sweet Cherie hiding from July

And all night
You kept me up ... up all night
Hoping that I could make you mine

You're gettin' me hot, Cherie
And I want what you got all over me
Isn't my love strong enough
I'm ready to rock you long and rough

You're gettin' me hot, Cherie
And I want what you got all over me
I'm going crazy

I can't wait for October
When the breeze from the lake; she's blowing cold
Well maybe she'll need me for some shelter
When the campfire dies and the tall tales have been told

And all night
I've been workin' overtime
Hoping that I could make you mine

You're gettin' me hot, Cherie
And I want what you got all over me
Isn't my love strong enough
I'm ready to rock you long and rough

You're gettin' me hot, Cherie
And I want what you got all over me
I'm going crazy
