

# Nobody's Fool

Hardline

Come on baby, let me touch ya  
Ya keep me hanging on  
You walk like you are ready to go  
Like a loaded gun, like a loaded gun  
You talk too much, but you stay out of sight  
I feel it can't go on  
Thought I was the king of the world  
Now I'm barely one

Don't call me crazy  
I won't say a lie  
Oh no, I can't control  
This feeling that's burning on

You mean no peace at all  
Breaking every rule  
You stand there, make me crawl  
I'm nobody's fool  
Nobody's fool

Now's my turn to stay away  
From the devil that's in you  
I know I'm gonna pay the toll

I guess my talk is true

Feel the thunder, hear the rain  
As we wait for Judgment Day  
I'm a man, no need to hassle  
I got nothing to say

Don't call me crazy  
I won't say a lie  
Oh no, I can't control  
This feeling that's burning on

You mean no peace at all  
Breaking all the rules  
You stand there, make me crawl  
I'm nobody's fool

You mean no peace at all  
Breaking every rule  
You stand there, make me crawl  
I'm nobody's fool

You mean no peace at all  
Breaking all the rules  
You stand there, make me crawl  
I'm nobody's fool
