

## Crown Me King

Harmony

Dark are the days of our past  
In the light you think you are  
You rest in the shades of tranquility  
Your mind comes alive  
Brings back your desire  
And wakes you up  
I will not hold you to your word again  
Cause we will contend for the same fate

Remember all that we've seen  
Our memories are endless  
Revive me, for all that we've done  
Take me back and crown me king  
In misery we have walked  
In the light you think I am  
Remembering you with a smile  
Left a thorn in my side  
In sorrow we're bound  
We long for yesterday  
I will not hold you to your word again  
Cause we will contend for the same fate

Remember all that we've seen  
Our memories are endless  
Revive me, for all that we've done  
Take me back and crown me king  
I'm in a restless dream  
You are in the realm of the real  
If I could only make you fell  
We'll be here forever

Remember all that we've seen  
Our memories are endless  
Revive me, for all that we've done  
Take me back and crown me king
