

# Daylight Has Caught Me

Harry Nilsson

Daylight has caught me,  
Can't go nowhere  
If it wasn't for the daytime  
There'd be nothing to fear  
If it wasn't for the daylight  
They say there wouldn't be no light at all  
But if it wasn't for the night life,  
I wouldn't be here at all  
I wouldn't be here at all  
Daylight has caught me  
Can't run away  
Daylight has caught me  
Looks like another day  
I'm waitin' for the moonshine,  
Come moon shine on me  
Looks like daylight has caught me,  
Daylight has caught me  
Well, I'm a friend of daylight  
Daylight's no friends with me  
Moonlight's an old friend of mine  
Keeps me drinking  
Keeps me up all the time  
Keeps me down by the river side  
Countin' stars, lookin' for some moonshine  
Moonshine is all I need  
Daylight comes sneakin' up on me  
Moonlight is all I want  
Daylight is all I can't stand  
Daylight has caught me once again  
Again, again, again, again  
Looks like that daylight's  
Caught up with me as fast as it could  
Looks like that daylight  
Won't let another day go by  
Well if I had some darkness 'round me  
I could really see  
But as it happens,  
Daylight has caught up on me  
So I say  
Damn damn the daylight  
It's gone and caught me for another day  
Damn damn the daylight  
It does it every day  
It does it anyway  
It wants to  
No matter how I fight it  
Why, I could put out the candles  
At night time  
But god's gonna light 'em  
In the morning  
Daylight's found me once again  
Daylight is chasin' me all over the world  
I'd like to jump on some airplane  
Just to get away from it all  
Daylight is after me,  
I don't like to see it smile  
That's why I pray for night time

And darkness  
Just for a while  
If I could sleep in the mornin'  
And I could play at night  
If I could have the evening  
I wouldn't need the daylight  
Damn, damn the daylight  
It's gone and caught me for  
Another day  
Damn damn the daylight  
It does it every day  
Let it rain on monday  
I'd be happy as a king  
But here comes the sun-king  
Every morning
