

## Easier for Me (1994 Remastered)

Harry Nilsson

Nobody loved her, it was easy to see  
That made it easy for me  
The boys never fought over her company  
That made it easy for me

Love so bright could only blind us  
How could reason hope to find us  
Hiding in the milky way  
Without a star to shine the way?

Sand castles fell from the tears in our eyes  
That made it easier to see  
Now the dream's over and I realize  
That makes it easy for me
