

I Don't Need You

Harry Nilsson

I don't need you
I don't need friendship
I don't need peace and harmony
I don't need you
And I know you don't need me

I don't need love or affection
I don't need flowers in the spring
I don't need you
And you surely don't need me

But we both want it bad enough
Yes we both want it don't we
But I don't need you baby
And I know you don't need me
I don't need your loving arms around me
All I needs is to be free
That's what I keep telling myself
And I tell you, you don't need me
I don't need children in my old age
Like cluttered leaves around the tree
I don't need you
And I know you don't need me
But we both want it bad enough
Yes we both want it don't we
But I don't need you baby
And I know you don't need me
We don't need each other baby
We don't need each other baby
Or do we?
