

# Indestructible Pillar

Hate

A fountain of glory in bloodshed  
Spurting through the ages of doom  
Entropic mighty devourer of divine  
Converging it all back to dust

Sacred Phoenix in the temple of sin  
In unity with stardust  
Approaching the twilight of the flesh  
Empowering a stellar design  
Vos Estis Lux

Ignite evil-lution of the spirit  
Let our war clense the world  
We are born of apocalyptic scorn  
Perfectly obscured from thy stare

Omega the spring of creation  
Its power shines with brilliance  
The usher in the new age of man  
A harvest of the flesh and soul

Indestructible pillar  
Colossal strength  
Amidst the carnage it revives  
The essence of man  
Smite religious terror  
Flogging the saints  
Destroy the holy gangrene  
Make in perish in glory of all sins

Unholy essence, devil's blood  
Kyrie Ignis Divine Eleison  
Atrocious crimes in light of theodicy  
Uranium plague that comprehends  
Consuming splendid human parasites

Never let the fire extinguished  
In the realm of unequalled design  
A king in the ocean of hate  
Adorned with dimensions of sin  
Stronghold of sin
