

Leviathan

Hate

Abyss born Leviathan! Abyss born Leviathan! Abyss born Leviathan!

In the absence of sun, in the black waters of the underworld
I fuel destruction in my realm of hate
In the oceans of grey, so vast of no return, I am a scourge of fire
offending thy god
I am restless survivor, a relentless soldier of Hate, a display of power,
A flame that burns in emptiness

Cradle of Malice, the low from below
God offenders I give you my blood
We fuel destruction

Darkness is a symphony of doom
Forget yourself leave all behind
Become as one in the eye of perdition
Leave flesh melt into nothingness
Gladly embrace all torments of hell
And unfold sterless aeon

Heavens lie at our feet!
Heavens lie at your feet! Heavens lie at your feet!
In our sacred domain where darkness prevails!

Abyss born Leviathan!
Abyss born Leviathan!
Abyss born Leviathan!

In a crash that submerged the universe I bring hymns of chaos
In the space without a whisper of light - in emptiness
Surging darkness coils to strike, it wallows in your blood and despair
Our rage is chaste and eternal, we breed all violence!

Abyss born Leviathan!
Abyss born Leviathan!
Abyss born Leviathan!

Darkness is a symphony of doom
Forget yourself leave all behind
Become as one in the eye of perdition
Leave flesh melt into nothingness
Gladly embrace all torments of hell
And unfold sterless aeon

Darkness will prevail! Darkness must prevail!
Darkness will prevail!
I am the cradle of Malice, the low from below
God offenders I give you my blood
We fuel destruction...
