Bleed to Death

Hatesphere

Name the time, name the place
And I will show you what I've got
Show you my fucking ace
Throughthe years I've trained my skills
Violent rapture is my codex

Now I start up my hate injected engine
Light up my rodeo of burning pits
Ain't life a bitch

Kneel down
Taste my switchblade knife
Oh so sharp, sharp as a razor
I'll stab your head and punch you in your mouth
You bleed to death before me
Bleed to death
