

# No Tomorrow

Havana Brown

And then this always  
It reminds me  
There's no tomorrow  
No tomorrow

Looks in his dreams  
I did a little snuck on his face  
He make me laughs and I don't know what to say  
We share a special room in the home of my soul  
And I dream of everything but letting you go

You say you love me  
I know it haunts you  
But when you hold me  
I believe every word you flew

(2x)  
Tie a string on my finger  
'Cause I forget to remember  
There's no tomorrow  
I forget to remember

And then this always  
It reminds me  
There's no tomorrow

And then this always  
And it reminds me  
There's no tomorrow

How many many of that crooked?  
I don't because what I love  
I've been drinking heavier than more men  
But please don't drink a drug to paralyze this love

You say you love me  
I know it haunts you  
But when you hold me  
I believe every word you flew

(2x)  
And then this always  
It reminds me  
There's no tomorrow  
No tomorrow

(4x)  
Tie a string on my finger  
'Cause I forget to remember  
There's no tomorrow  
I forget to remember
