

# We Run The Night

Havana Brown

When the sun goes down, down, down, down  
Boy are you afraid of the dark, dark  
And when the lights go out, out, out, out  
Tell me do you know where to start, start  
And when the base gets loud, loud, loud  
That is when I feel a part, part  
And when the world sleeps sound, sound, sound, sound  
Well the sound is the key to my heart

We run.. a yes, we run the night, the night  
We run.. a yes, we run the night, night, night, night, night, night  
We run.. a yes, we run the night, we, we, we, run  
We run.. a yes, we run the night, the night, night, night, night, night

Run 'em, like run 'em, run 'em  
Run 'em, like run 'em, run 'em

Feel the life go rush, rush, rush  
Pushing past me, all over my skin, skin  
I can get enough 'nough 'nough 'nough  
'cause the beat keep pullin' me in  
Takin' me so high up, up, up  
Place that I've never been, ahhhh  
Party, party all night, night, night, night,  
sleep all day then do it again, 'gain

We run.. a yes, we run the night, the night  
We run.. a yes, we run the night, night, night, night, night, night  
We run.. a yes, we run the night, we, we, we, run  
We run.. a yes, we run the night, the night.

Run 'em, like run 'em, run 'em  
Run 'em, like run 'em, run 'em

eh, eh, eh,  
eh, eh, eh,  
Turn the lights down  
Turn the lights down  
eh, eh, eh,  
eh, eh, eh,  
Turn the lights down, down  
Turn the lights down

We run.. a yes, we run the night, the night  
We run.. a yes, we run the night, night, night, night, night, night  
We run.. a yes, we run the night, we, we, we, run  
We run.. a yes, we run the night, the night, night, night, night, night
