

Ghost

Have Mercy

I wish I could hold you for old times' sake
A dream I always had when I'm awake
But the memory has grown opaque
You leaning over the emergency brake
I only hear your voice when I am alone
I pray for clarity but I will take the jump

Can you haunt these halls?
Can you be my ghost?
Feel you in these walls
Attach to me and I'll be your host
You can leave me the same little notes and
No one will ever take you away
It's like I'm still begging you to stay

I'm still doing all the things you said you hate
When you were here you would set me straight
Wish we could recreate
Every memory we tried to make

I only hear your voice when I am alone
I pray for clarity but I will take the jump

Can you haunt these halls?
Can you be my ghost?
Feel you in these walls
Attach to me and I'll be your host
You can leave me the same little notes and
No one will ever take you away
It's like I'm still begging you to stay

To stay, to stay, ooh
To stay, to stay, to stay, ooh

Can you haunt these halls?
Can you be my ghost?
Feel you in these walls
Attach to me and I'll be your host
You can leave me the same little notes and
No one will ever take you away
It's like I'm still begging you to stay
