

Have Mercy

Have Mercy

The time has come for you to fight or die
The bodies of the enemies, mourners now cry
If you can be saved we will spare you
Instead we'll teach you the ways, have mercy on you
Have Mercy, the time has come
Have Mercy, the deeds are done

Stay away from evil, don't sell your soul it's a waste
But help us conquer evil, on our swords the blood we'll taste

Repent you sinners, come forth for God is on our side
Stay away from Satan he is evil, fill you full of lies
Reach out God can help you just look into his eyes
Do it now the time is running out another sinner dies

We were born for a purpose to help save your lives
We send our message through metal there's no compromise
Take heed to our cause we know it can help you
Or else we'll accept no mercy & cut you in two
