

forever

Hayley Kiyoko

Light me up like a fire
Reel me in hold me higher
High enough
So I can see your love

Then I can breathe it in from the sky
Take me back to skipping classes
Second chances
I just wanna be close to you

I am always willing if you're ready for it
Cool like the ocean breeze
Healed all your broken pieces

Saw you and I knew what I was headed for
Loved you since seventeen
And our love is all we need

Make her feel like she's so pretty
Prettier than the whole city
I wanna feel that forever
Ever, ever, ever, ever
Make her feel like we have never
Been so in love with each other
I wanna feel that forever
Ever, ever, ever, ever

It started with a drink and
A couple long J's at the top of the morning
Parents always thought I had to assure them
Had to run away, we were looking for more

I was in LA tryna get on tour
And you'll be right there when I'm performing
Why would we ever leave on a love like that?

I am ever-willing if you're ready for it
And we're gonna fly someday
We're gonna find our "something real"

Saw you and I knew that I was headed for it
And I'm headed fast now babe
We're still those wild kids in the dark
'Cause you light fire to my heart
You light fire to my heart

Make her feel like she's so pretty
Prettier than the whole city
I wanna feel that forever
Ever, ever, ever, ever
Make her feel like we have never
Been so in love with each other
I wanna feel that forever
Ever, ever, ever, ever

Make her feel like she's so pretty
Prettier than the whole city

I wanna feel that forever
Ever, ever, ever, ever
Make her feel like we have never
Been so in love with each other
I wanna feel that forever
Ever, ever, ever, ever

Reach for me, grab my hand
Friday nights I won't forget
High in love

I wanna feel the wind from every angle
In the sky like an angel
Caught my eye

Saw you and I knew what I was headed for
Loved you since seventeen
And our love is all we need

Make her feel like she's so pretty
Prettier than the whole city
I wanna feel that forever
Ever, ever, ever, ever
Make her feel like we have never
Been so in love with each other
I wanna feel that forever
Ever, ever, ever, ever

Make her feel like she's so pretty
Prettier than the whole city
I wanna feel that forever
Ever, ever, ever, ever
Make her feel like we have never
Been so in love with each other
I wanna feel that forever
Ever, ever, ever, ever
