

# Over Yet

Hayley Williams

If there's resistance  
If there's resistance  
It makes you stronger  
It's not the end

If there's resistance  
If there's resistance  
It makes you stronger  
Make it your friend

When there's persistence  
When there's persistence  
You can go farther  
Beyond the end  
If in the distance  
There's more resistance  
Try to stay open  
Make it your friend

It's the right time to come alive  
Baby, if you wanna try  
To get out of your head, yes, break a sweat  
Baby, tell yourself it ain't over yet

It's the right time to come alive  
Baby, if you wanna try  
To get out of your head, yes, break a sweat  
Baby, tell yourself it ain't over yet

If there's resistance  
If there's resistance  
It makes you stronger  
It's not the end  
When there's persistence  
When there's persistence  
You can go farther  
Make it your friend

It's the right time to come alive  
Baby, if you wanna try  
To get out of your head, yes, break a sweat  
Baby, tell yourself it ain't over yet

It's the right time to come alive  
Baby, if you wanna try  
To get out of your head, yes, break a sweat  
Baby, tell yourself it ain't over yet

For every darkened part of me  
For every darkened part of me  
For every darkened part of me

It's the right time to come alive  
Baby, if you wanna try  
To get out of your head, yes, break a sweat  
Baby, tell yourself it ain't over yet

It's the right time to come alive (For every darkened part of me)  
Baby, if you wanna try (There's a light I can see)  
To get out of your head, yes, break a sweat (Both belong)  
Baby, tell yourself it ain't over yet (Both are me)

(It's the right time)  
(To get out of your head)
