

Sisters, brothers, carry each other  
We'll be coming home again

We'll be coming home again  
We're coming home

Battlefield, original tribe, we're coming home

Echoes from the battlefield, fading from our heads

Sisters, brothers, carry each other  
We'll be home again

United as a family  
We can make a stand

Sisters, brothers, carry each other  
We'll be coming home again

Built for the night  
Born to the throne  
Battlefield, original tribe, we're coming home

Sisters, brothers, carry each other  
We'll be coming home again  
We're coming home

Built for the night

United as a family  
We can make a stand

Sisters, brothers, carry each other  
We'll be coming home again

Built for the night  
Born to the throne  
Battlefield, original tribe, we're coming home

Built for the night

We'll be coming home again
