

Stuck in Ur Head

Headhunterz

I know you can feel it
I'm everywhere
Designed to destroy every sound system on this planet
Spreading by thousands across the entire nation
Resistant to any attempt of digital reputation

I'm invading your system
Like a music disease
I'm going deeper and deeper
Get you down on your knees
And you got no medicine against the shock
I'm stuck in your head, until my heart stops
(3x)

I'm stuck in your head, until my heart stops

I'm stuck in your head

Until my heart stops

I know you can feel it
I'm everywhere
Designed to destroy every sound system on this planet
Spreading by thousands across the entire nation
Resistant to any attempt of digital reputation

Inside of your head, until my heart stops
Until my heart stops

Spreading by thousands across the entire nation
Resistant to any attempt of digital reputation
Until my heart stops

Until my heart stops (2x)
